Cleaning and Maintenance

FEATURES

Gel of neutral chemical reaction. With smell of lime green.

PROPERTIES

BAKGEL does not foam, is not caustic, toxic, or irritating.

Dries quickly without dehydrating the skin, due to its self-lubricating functions.

Do not leave your hands slippery or greasy.

BAKGEL ensures a quick hands disinfection without leaving harmful residues. You do not need water, or cleaning up after application.

APPLICATION

BAKGEL should be applied always in clean and dry hands. Apply the equivalent of a nut shell.

Rub well in order to pass BAKGEL between the fingers and nails until it is completely dry.

Do not wash or clean after this operation.

BAKGEL can be used with a preventive purpose: before handling materials, objects or curative function: after going to the toilet, after touching on suspected surfaces or handling contaminated objects, etc.

UTILIZATION

BAKGEL is used in hospitals, clinics, veterinary clinics, kindergartens, nurseries, ambulances, laboratories, food industry, funerary, etc.

BAKGEL can be applied with the DOSIBAK dispenser.

ADVANTAGES

- Ensures quick hand disinfection
- Dries quickly
- Contains self lubricating agents
- Green lime odour
- Ethanol base

BAKGEL application example

TECHNICAL SPECIFICATIONS	
DILUTION	Not applicable
CHEMICAL NATURE	Hydrated gel, with purified ethanol and specific agents. Biocide product classified as TP1. INCI COMPOSITION: AQUA, ETHANOL, FRAGRANCE, GLYCERIN, CARBOMER
SURFACTANTS	Not applicable
PHYSICAL STATE / COLOUR	Colourless viscous liquid
ODOUR	Green lime
pH	8,0
SOLUBILITY IN WATER	Complete
CLEANING PERFORMANCE	Very good
RINSING	No
FOAMING	No
RELATIVE DENSITY	0,890
FLASH POINT	≥ 23°C e ≤ 55°C
CHEMICAL REACTION	Practically neutral
CLASSIFICATION	Flammable
EXPIRATION	2 years. Stored in the original packaging. Protect from excessive sunlight. Avoid extreme temperatures.

Food grade product, for disinfection of hands.

APPLICATION

BAKGEL applies in clean hands, the equivalent of a nut shell; then rub well BAKGEL between fingers and nails until complete drying thereof.

Do not clean or wash.

CAUTIONS

Close the packing after each use. Do not mix with other products. Keep out of children reach. In case of contact with eyes, wash immediately with plenty of potable water. Always make a test to determine the compatibility and the appropriate contact time. Chemical product: Always read the label before using.

External use. Flammable.

BAKGEL

BAKGEL is antiseptic, non-allergic ready to use hand disinfectant. The disinfectant efficacy was tested by the following French and European standards:

NFT 72.154 Bactericidal efficacy	<i>Pseudomonas aeruginosa</i> CIP A 22 <i>Escherichia coli</i> CIP 54 127 <i>Staphylococcus aureus</i> CIP 53.154 <i>Enterococcus hirae</i> CIP 5855 <i>Mycobacterium smegmatis</i> CIP 73.26
NF EN 1040 Bactericidal efficacy	<i>Pseudomonas aeruginosa</i> CIP 103 467 <i>Staphylococcus aureus</i> CIP 4.83
NF EN 1276 Bactericidal efficacy	<i>Pseudomonas aeruginosa</i> CIP 103 467 <i>Escherichia coli</i> CIP 54 127 <i>Staphylococcus aureus</i> CIP 4.83 <i>Enterococcus hirae</i> CIP 5855
NFT 72.301 Bactericidal efficacy	<i>Listeria monocytogenes</i> CIP 54.149 <i>Salmonella typhimurium</i> CIP 5858
EN 1275 Fungicidal efficacy	<i>Candida albicans</i> (5 minutes)

BAKGEL for its high content exceeding 65% of alcohol, has a virucidal action against HIV.

BAKGEL is a hygienic gel that conforms to European standard EN 1500 (Hygienic treatment of hands by friction).

BAKGEL is a ready to use product, requires no water, clean and dry in 30 seconds.

Decontaminant fast between operations, reducing the microbial contamination of hands and gloves between handling operations.

Services: Doctors, kindergartens, 3rd age homes, nurses, laboratories, dentists, clinics, ambulances, firefighters, paramedics, physical therapy, veterinary clinics, agri-food industry, manufacturing packaging and preparation of food, cooked dishes, supermarkets, dairies, charcuteries, fishmongers, butchers, funerary, etc.

Apply BAKGEL always in clean and dry hands. Rub hands thoroughly for 30 seconds uniformly, and not forget the area between the toes and nails. Let dry and do not clean.
