FEATURES

Liquid product with chemical reaction slightly caustic of green colour. Biodegradability higher than 90%.

PROPERTIES

DINACO in water is miscible in all proportions, it is fast decomposing and dissolving: plants, towels, toilet paper, hair, rags, greasy clumps and saponified, organic tartar and mineral source, cigarettes, etc..

The DINACO use doesn't affect the proper functioning of septic tanks.

UTILIZATION

DINACO is used to unclog pipes partially or completely obstructed, sewers, drains, sinks, toilets, bidets, showers, bathtubs, etc. ...

APPLICATION

DINACO comes in packs of 1 litre. This is a caustic product please respect exactly the safety standards in the use of this product as follows: Add always pure product slowly in place to unclog, let soak, wait a while and then pass water in abundance.

In preventive applications, use DINACO periodically, because it avoids the risk of clogging in the pipes and the appearance of bad odours.

ADVANTAGES

- Fast decomposing and dissolving
- Caustic product
- Doesn't affect the proper functioning of septic tanks
- Ready to use

DINACO application example

TECHNICAL SPECIFICATIONS	
DILUTION	Not applicable
CHEMICAL NATURE	Preparation based on strong mineral acid, sulfuric acid and corrosion inhibitors agents.
SURFACTANTS	Not applicable
PHYSICAL STATE / COLOUR	Green liquid
ODOUR	Characteristic
PH	0,15
SOLUBILITY IN WATER	Complete
CLEANING PERFORMANCE	Very good
RINSING	No
FOAMING	No
RELATIVE DENSITY	1,800
FLASH POINT	Not concerned
CHEMICAL REACTION	Strongly acid.
CLASSIFICATION	Corrosive
EXPIRATION	2 years. Stored in the original packaging. Protect from excessive sunlight. Avoid extreme temperatures.

CAUTIONS

Chemical product: Always read the label before using. Close the packing after each use. Keep out of children reach.

Never pour water into the product. Pour slowly when the product in water. In use, preferably using gloves.

Always make a test to determine the compatibility and the appropriate contact time.
