

# REFRIOX

DESCALER , DEOXIDIZER  
AND SURFACES RENEWAL

Cleaning and Maintenance

Industry

## FEATURES

Colourless liquid of acidic chemical reaction, not caustic . Non flammable.

## PROPERTIES

REFRIOX has great power degreaser, is economical, and quick to act.

REFRIOX is miscible with water in all proportions, has a low surface tension and assures a perfect penetration on embedded dirtiness.

## APPLICATION

REFRIOX can be applied by spray or bath, diluted with cold or warm water (40-50°C) at a concentration according to the thickness of the dirt being cleaned.

Dilute REFRIOX in the proportion of 1 litre to 4 litres of water in descaling operations or renewal and 1 litre until 8 to 10 litres of water for frequent cleaning.

Where necessary, remove grease and loose debris, before cleaning. For renewal of pieces and deoxidation dilute in the proportion of 1 litre to 4 litres of water, depending on the nature of dirt or oxidation. Leave to act between 5 to 10 minutes.

## UTILIZATION

REFRIOX is used for renovation and descaling of refrigeration equipments and heating.

REFRIOX is especially effective in the exterior renovation of the acclimatization equipment, boilers, air-cooling systems, etc ...

REFRIOX solubilizes: organic dirtiness, tatars, dust, dead insects, plant deposits, calcified deposits and metal oxides (white rust).

It is particularly effective in removing the green oxidations which usually appear in copper tubes. REFRIOX is used by service and maintenance companies of air conditioning system and refrigeration appliances.

## ADVANTAGES

- Descaler and deoxidizer
- Highly effective degreasing
- Low surface tension
- Quality food product
- Non flammable

REFRIOX application example

| TECHNICAL SPECIFICATIONS |   |
|--------------------------|---|
| DILUTION                 | 1 litre to 4 litres of water  |
| CHEMICAL NATURE          | Preparation based on a combination of mineral acids, surfactants, non-ionic emulsifiers and corrosion inhibitors. |
| SURFACTANTS              | Not applicable  |
| PHYSICAL STATE / COLOUR  | Colourless liquid   |
| ODOUR                    | Odourless   |
| PH                       | 1,2   |
| SOLUBILITY IN WATER      | Complete  |
| CLEANING PERFORMANCE     | Very good   |
| RINSING                  | Yes   |
| FOAMING                  | No  |
| RELATIVE DENSITY         | 1,135   |
| FLASH POINT              | Not concerned   |
| CHEMICAL REACTION        | Acid  |
| CLASSIFICATION           | Irritating  |
| EXPIRATION               | 2 years. Stored in the original packaging. Protect from excessive sunlight. Avoid extreme temperatures.           |

Quality food product, in terms of cleaning materials and equipment that can be in contact with food products, a simple cleaning with potable water is enough before drying

#### CAUTIONS

Chemical product: Always read the label before using. Close the packing after each use. Keep out of children reach.

In case of contact with skin or eyes, rinse with plenty of water. Do not mix with other products. Use appropriate protective material. Protect from freezing.

Always make a test to determine the compatibility and the appropriate contact time.

#### PORTUGAL

Imporquímica- Indústria Portuguesa de Produção Química, S.A.  
Zona Industrial Alto do Carvalhinho, Lote 11 - Apartado 39  
2861-909 Moita - Portugal  
Tel: +351 212 808 390 | Fax: +351 212 808 395
