DESINLAVE

ODOURLESS
DEGREASER AND DISINFECTANT

Hotels and Restaurants | Health

Food Industry | Cleaning and Maintenance

FEATURES

Liquid of alkaline chemical reaction with clear appearance. Colourless and odourless.

Biodegradability higher than 90%.

PROPERTIES

DESINLAVE is miscible in water in all proportions, easily washable, stable and active in water of high hardness.

Disinfectant power associated at low surface tension meeting the standards AFNOR NF EN 1040 (2% V/V) and AFNOR NF EN 1276 (5% V/V) of bactericidal efficacy.

Triple Function:

Degreases, Disinfects and eliminates odours.

DESINLAVE is a strong degreaser, penetrating recommended for simultaneous cleaning and disinfection of all surfaces.

UTILIZATION

DESINLAVE is applied by spray or immersion, in hot or cold water in the proportion of 2 until 5 liters of product in 100 liters of water, depending on the dirtiness and the frequency of cleanings.

For a perfect disinfection leave 10 minutes in contact with the surfaces.

DESINLAVE is applied by spray, immersion or with a mop.

DESINLAVE is a product indicated for the whole Food Industry.

NOTE: Bactericidal Efficacy tests available upon request.

ADVANTAGES

- Degreaser and Disinfectant
- Bactericidal Efficacy
- Odourless
- Quality food product
- Low surface tension

DESINLAVE application example

TECHNICAL SPECIFICATIONS	
DILUTION	2 to 5 Litres until 100 Litres of water
CHEMICAL NATURE	Alkaline salts with anti-limestone functions, non-ionic surfactants, bactericidal agents based on quaternary ammoniums.
SURFACTANTS	Nonionic
PHYSICAL STATE / COLOUR	Colourless liquid
ODOUR	Odourless
PH	12,5
SOLUBILITY IN WATER	Complete
CLEANING PERFORMANCE	Very good
RINSING	Yes
FOAMING	No
RELATIVE DENSITY	1,085
FLASH POINT	Not concerned
CHEMICAL REACTION	Alkaline
CLASSIFICATION	Irritating
EXPIRATION	2 years. Stored in the original packaging. Protect from excessive sunlight. Avoid extreme temperatures.

Quality food product, in terms of cleaning materials and equipment that can be in contact with food products, a simple cleaning with potable water is enough before drying

CAUTIONS

Chemical product: Always read the label before using. Close the packing after each use. Keep out of children reach. Do not store the product to heat and protect from the cold.

Avoid prolonged contact with skin. In case of contact with skin or eyes, rinse thoroughly with clean water.

Always make a test to determine the compatibility and the appropriate contact time.

FUNCTIONS	APPLICATION	DILUTION	RINSE
Detergency and disinfection. If necessary, activate the cleanliness with brush. Disinfection: allow to act in contact with the surface for 10 minutes.	Mop, broom or sponge	Solution for cleaning. Dilute 1 litre until 50 litres of water depending on the dirtiness of the surface. AFNOR NF EN 1276 in concentration of 5% v/v	For surfaces that can be in contact with food products, finish with cleaning with potable water.
Destroyer of bad odours	For micro-spraying	Application by micro-spraying directly on the source of bad odours. Dilute 1 litre until 20 litres of water.
